

Insurance, Cancellation and Financing

All Smiles Dental Care makes it easy for you and your family to receive exceptional dental care which you deserve. We **accept**, most major insurance plans and we happily file your dental claim on your behalf*. We also offer financing.

After your appointment, we will submit your claim to your insurance company. If you have a deductible or a co-pay due for services provided, those fees are due at the time of service. We provide you with a complete estimate before any treatment is done, and we make every effort to maximize your dental benefits. Because each employer designs their own dental plan, it is always best to contact your employer or insurance company to completely understand what is covered by your dental benefit plan.

*All Smiles Dental Care refuses to allow non-clinical personnel to dictate the type of treatment our patients should be allowed to receive. Please contact your insurance provider to verify coverage for out-of-network practices.

Cash Payments

For services not covered or not submitted to insurance, we accept cash, check or major credit cards. We do ask for payment at the time of service.

Cancellations

All Smiles Dental Care has a 48 business hour cancellation policy. A \$25 cancellation fee will be charged to your account if the cancellation policy is not honored.

Financing

All Smiles Dental Care accepts CareCredit as a form of payment, which offers you the flexibility of monthly payments through financing. For those who qualify, CareCredit offers no interest options if paid in full within 6, or 12 months promotional financing options. Please read and understand the CareCredit terms and financing options at

 www.carecredit.com.

CareCredit promotional financing options may expire at any time. All Smiles Dental Care is not affiliated with CareCredit.
